Environetics Awarded Workplace Excellence For the Third Year Running

Interior architectural design firm, ranked #4 in the small firms category, created empowering workspaces for three other companies listed on the Los Angeles Business Journal's Best Firms to Work For in 2010.

LOS ANGELES, Calif., September 5, 2010 – Environetics, a full-service architecture, interior design, engineering, and LEED consulting firm, announced it designed sophisticated, empowering workspaces for three companies ranked by the Los Angeles Business Journal as the 2010 Best Firms to work for in Los Angeles in 2010. Among the recognized were Environetics' clients, including: CPEhr, M. David Paul & Associates, and Altour for medium-sized companies. Environetics was awarded as the 4th best small company to work on the prestigious annual "Best Places to Work" list, along with its clients.

"While we are gratified to once again be recognized by the Los Angeles Business Journal, our greater fulfillment comes from knowing we contributed to our clients' success by creating environments that foster professional development, individual achievement, a strong sense of culture and successful teamwork," said Rodney Stone, president of Environetics.

About Environetics... Designing Environments That Work

Collaborating with clients, whose values they share, Environetics seeks to create environments that make a positive difference in the lives of their users and for the community.

Environetics is a full-service architecture, interior design, engineering, and LEED consulting firm specializing in the corporate, academic, healthcare/senior care, industrial, hospitality/retail, residential, recreation/fitness and the public sector markets. With independently owned offices located in New York, Philadelphia, New Jersey, Los Angeles, and Seoul, Korea, and over 70 staff, the alliance can access a broad geographic area and knowledge base to better serve our clients.
